# Tanveer Ahamed

**Bangalore, India**

**Gmail**:tanveer1.mtm@gamil.com

**M. No:** 9154040123

**Profile**: TanveerAhamed

**LinkedIn**: TanveerAhamed

**LeetCode**: TanveerAhamed

## SKILLS

**PROGRAMMING** - Python

**FRONTEND**

- React - React Native
- Html - CSS - JavaScript
- TypeScript - Bootstrap

**BACKEND**

- Nodejs – Django

**DATABASE**

- SQL Server - Mongo dB

**FAMILIAR WITH**

- Data Structures And Algorithms
- Azure - ADF - Snowflake – Git - Prompt Engineering

## EDUCATION

**VR SIDDHARTHA ENGINEERING COLLEGE**

B. TECH(CSE) |2016-2020

ANDHRA PRADESH, INDIA

CGPA: 8.3

## CERTIFICATION

- Scalability and System Design - link
- Prompt Engineering - link
- Django for Everybody - link
- Azure Cloud AI-900 - link
- React Js - link

Result-oriented Full Stack Developer with 4+ years of experience, specializing in frontend development with React, React Native and Nodejs. Proven track record in building scalable, user-friendly applications, including POS systems, AI- powered ad modules, and payment integrations. Adept at creating intuitive UIs that enhance user experience and drive business results.

## EXPERIENCE

### SOFTWARE DEVELOPER

LIMENDO, Bangalore, India| June 2022 – Present

**Tech Stack: React, React Native, Node**

- Designed and developed the **frontend** of the **Kassa** (POS) application. Implemented key features including cart management**,** combo flow and complete order process flow**.**
- Focused on creating an intuitive and efficient UI to streamline retail operations and enhance end-user satisfaction.
- Designed and developed a module in **Yodalytics** enabling **AI-powered ad generation**, allowing users to quickly create customized ad pop-ups.
- Enhanced user experience by integrating AI automation and reducing ad creation time by 50%
- Developed and integrated a **payment module using Stripe** to facilitate seamless transactions within the **Mytoni** platform.

### SYSTEM ENGINEER

INFOSYS, Hyderabad, India | Nov 2020 – June 2022

**Tech Stack: React**, **Nodejs**, **Azure**, **ADF**, **Snowflake**

- Developed a React-based data analysis dashboard for Kraft Heinz, enabling CRUD operations on warehouse data
- Collaborated with cross-functional teams to analyse large datasets in the sales domain using Snowflake and Azure ADF, driving data-driven decision-making.

### FULL STACK INTERN

SPACE APPLICATION CENTER ,ISRO, India |Dec 2019 - June 2020

**Tech Stack: React, Django**

- Contributed to under developing project Geo Processing work bench
- Developed a React-based console for geo-spatial data visualization, enabling users to perform analytical operations efficiently.
- Optimized map loading time by 30% by building a tile-generating server in Django
